

2021 was another banner year for Plative. Fueled by the capability and dedication of our people and the trust of our amazing customers, we completed over 300 engagements and notched our second consecutive year as a Certified Great Place to Work all while doubling the size of our company in twelve months. We are excited to highlight a few of our meaningful accomplishments from the past year below.

In Q4 of 2021, we launched **Plative | Ascend**, our global early talent program. The mission of **Plative | Ascend** is to find, develop, and inspire the next generation of talent in the Salesforce and Oracle NetSuite ecosystems. With this program, we are committed to providing learning and development opportunities to individuals who are starting their careers while creating a pipeline of future leaders of our global business.
